

# HackteriaLab 2011

28. July - 4. August, "The Retreat", L'Arc, Romainmôtier (VD)  
6. - 7. August, "The Reflection", Kunstraum Walcheturm, Zürich

## What

Hackteria is a community based platform and information portal for the open sharing of knowledge, instructions, critical reflections and theoretical articles about open source art and DIY projects dealing with biology, life science, biotechnology. During the HackteriaLab 2011 a highly interdisciplinary and multicultural group of artists, hackers and scientists will collaborate work and share their knowledge on DIY biology, generic lab infrastructure and garage labs for working with living systems. HackteriaLab 2011 is comprised of a first creative development and research phase of the "Retreat" at L'Arc, Romainmôtier (VD) and the second a "Reflection" comprising the public dissemination and communication events in Yverdon, Lausanne and Zürich as the culmination of the retreat.
